GENESIS Environmental Consultants, Inc. was established in 1988 to perform environmental consulting and analytical services for both the public and private sectors.

GENESIS' consistent growth over the last thirty years reflects our unyielding dedication to the highest standards of quality and client satisfaction.

GENESIS' analytical laboratory is certified by the NYS Department of Health Environmental Laboratory Approval Program and possesses a NYS Department of Labor Asbestos Handling License.

GENESIS maintains a field staff that is licensed on the local, state and federal levels and our staff is fully trained and experienced. We have licensed Project Designers, Management Planners, NYC Investigators, Project Monitors, Air Sampling Technicians, Lead Inspectors and Lead Risk Assessors on staff so that we may respond immediately to our clients needs.

The company maintains Comprehensive General Liability insurance in addition to Professional Liability insurance.

GENESIS provides a vast range of consulting and analytical services. Consulting services include, but are not limited to, asbestos and lead abatement air monitoring and project monitoring, indoor air quality studies, building surveys, environmental assessments and technical specifications. Analytical services include asbestos airborne analysis by phase contrast microscopy.

GENESIS Environmental Consultants and all its personnel are committed to quality in performance to meet our clients' requirements the first time and every time with zero defects.

GENESIS' well established QA/QC procedures, laboratory practices and standard operating procedures assure totally meeting all regulatory and contractual requirements.
